MEN

- Revitalises the tired eye area
- Smooths out the skin and increases its tension and firmness
- Moisturises
- Cooling
- Ideal for when you're on the go
- Non-sticky concentrate
- Quickly absorbed by the skin

Energizing Eye Roll-On

REVITALISING EYE-CARE ROLL-ON

The refreshing Energizing Eye Roll-On immediately tackles signs of tiredness. The cooling massage ball applies the powerful formula directly to the skin. In this process, the eye area is softly massaged, and swellings are reduced. Over time, the skin's elasticity and tension is improved, wrinkles are reduced.

Energizing Eye Roll-On contains SPECIMEN, a 100% natural anti-aging ingredient, developed especially for men, from the leaves of the South African Baobab tree. This extract prevents the build-up of versican, a proteoglycan, which collects in the elastic fibres of men's skin as they get older, and leads to a loss of viscoelasticity. With the help of the Baobab extract, the skin's viscoelastic properties are improved, and wrinkles are demonstrably reduced.

In addition, Men's Eye Perfecting Complex, a powerful formulation consisting of peptides, microalgae extracts, panthenol and short chain hyaluronic acid, reduces dark circles, lines and wrinkles.

The result: The eye area immediately appears fresher and more relaxed and rested. Over time, the appearance of wrinkles, dark circles and under-eye bags is improved.

Application

Apply Energizing Eye Roll-On under the eyes every morning and evening after washing and before your skincare routine, and allow it to absorb.

INGREDIENTS

- **Men's Eye Perfecting Complex:** Powerful 4-1 formulation, consisting of a tripeptide combining a micro algae extract, panthenol and short chain hyaluronic acid; significant improvements are noticeable after just 7 days. Dark circles are reduced. Fine lines and wrinkles are visibly reduced
- **SPECIMEN:** Anti-aging ingredient developed specially for men from the leaves of the South African Baobab tree; improves the skin's viscoelastic properties; reduces the stark appearance of under-eye bags
- **Short and long chain hyaluronic acid:** Intensively moisturises and preserves the skin
- **Caffeine:** Stimulates microcirculation and counteracts swellings
- **Menthyl lactate:** Ensures a lasting cooling and refreshing effect
