FACIAL CREAM MASKS

- **Makes skin look fresh and revitalized**
- **Intensively moisturizing**
- **Smoothens fine wrinkles caused by dryness**
- **Maintains the skin's elasticity and firmness**

Application

After cleansing the skin and the application of a serum, distribute Pomegranate Cream Mask on the area of the skin to be treated and leave it to work for up to 20 minutes. Remove the mask residues with warm compresses. Then apply a care cream corresponding to the skin type.

■ Pomegranate Cream Mask

REFRESHING CREAM PACK FOR ALL SKIN TYPES. TURNS TIRED-LOOKING SKIN INTO A RADIANT, BEAUTIFUL COMPLEXION

Pomegranate Cream Mask is the optimum instant booster for tired, drawn skin. The secret behind this vitalizing anti-ageing mask is the valuable extract of pomegranate blossom, a powerful exotic fruit that has symbolized life and beauty in many cultures since time immemorial. Together with alpha bisabolol phosphate, it creates an innovative combination of active anti-ageing ingredients that, on the one hand, promote the collagen synthesis and on the other reduce the age-related reduction of collagen fibres.

Collagen makes up around 70-90% of the skin's dry weight and plays a key role in the maintenance of the skin structure. The production of new collagen fibres is therefore essential for young and healthy looking, firm skin.

Pomegranate Cream Mask stimulates the collagen synthesis with a pomegranate blossom extract and vitamin C phosphate. At the same time, it decreases the reduction of collagen that is accelerated by environmental factors such as exposure to UV rays and genetic makeup related processes. It refines the skin's contours, has a revitalizing effect, gives the skin a rosy bloom and results in an even, smooth, radiantly beautiful complexion.

A fresh, floral fragrance and the creamy consistency perfect this vitalizing skin care treat.

ACTIVE SUBSTANCES

- **Pomegranate blossom extract:** Obtained from pomegranate blossoms, improves the skin's density, promotes its collagen synthesis, reduces wrinkles. Pomegranates are a natural anti-ageing remedy
- **Vitamin C phosphate:** Stimulates the synthesis of collagen fibres, improves the skin's smoothness, protects against free radicals, inhibits the production of melanin
- **Alpha bisabolol:** Soothing, reduces redness
