Immediate Calming SOS MASK

50 ml tube
100 ml dispenser

SHORT DESCRIPTION	Immediately calming mask / overnight mask
SKIN TYPE	Stressed, sensitive skin
PRODUCT GALENICS	Pink creamy texture
PRODUCT DESCRIPTION	Immediate Calming SOS MASK is an immediate calming mask with a cream basis which has been specially developed for stressed and sensitive facial skin. Redness and telangiectasias are counteracted, the overall appearance of skin tone improved, the skin supplied with moisture and protected from drying out. Lines and wrinkles are filled out.
EFFECTS AND CHARACTERISTICS	<ul style="list-style-type: none"> • Reduces the transepidermal water loss • Immediate calming and anti-inflammatory effect • Long-lasting moisturising of the skin (long-term effect lasting 72 hours) • Strengthens the barrier function of the skin • Soothes redness • Protects the cells from free radicals • Minimises collagen degradation • Forms a water-binding film on the surface of the skin • Protects the skin from dryness • Pads out lines and wrinkles • Strengthening of the capillary system • Improvement of skin tone
SPECIAL INGREDIENTS	<ul style="list-style-type: none"> • Glycerine: is hygroscopic and binds water in the upper layers of the Stratum corneum. This increases the moisture content of the skin and reduces transepidermal water loss. The skin is supplied with long-lasting moisture and the micro-relief is smoothed. • Allantoin: the calming and anti-inflammatory properties counteract redness. • PENTAVITIN™*: skin identical carbohydrate complex for long-lasting moisturising of the skin. 72 hours long-lasting effect thanks to the permanent junction to the keratinocytes of the Stratum corneum. This strengthens the barrier function which reduces transepidermal water loss. • Alpha Bisabolol: The calming and anti-inflammatory properties counteract redness.

SPECIAL INGREDIENTS

- **GSP-Plus®**: the combination of water-soluble procyanidins obtained from Swiss grape seeds and oil-soluble natural tocopherol results in a powerful, anti-oxidative complex. In studies (in vitro) GSP-Plus® inhibited the lipid peroxidation, protected the cells from ROS (Reactive Oxygen Species) and the glycation-induced collagen degradation was reduced. In addition, the gentle property counteracts redness.
- **Long-chain Hyaluronic acid**: Long-chain Hyaluronic acid is not able to penetrate the skin, but it forms a water-binding film on the surface and thus protects the skin from drying out. Fine lines and wrinkles are padded out (line filler effect).
- **Biophytex®**: a combination of a various plant extracts strengthens the capillary system of the skin and counteracts redness. Placebo-controlled studies demonstrated an improvement in skin tone (with regard to redness) by more than 30 % after two weeks when applied twice a day. The number of telangiectasias can be reduced by around 20 %. The skin appears more even and fresher.

USE IN THE CABINE | AT HOME

Use whenever your skin shows irritation or apply once or twice a week at night to the cleansed skin of face, neck and décolleté and leave to work overnight. Avoid the eye area.
