Beautiful Eyes CREAM

15 ml glass jar
30 ml dispenser

SHORT DESCRIPTION

Eye care

SKIN TYPE

Stressed, sensitive eye region

PRODUCT GALENICS

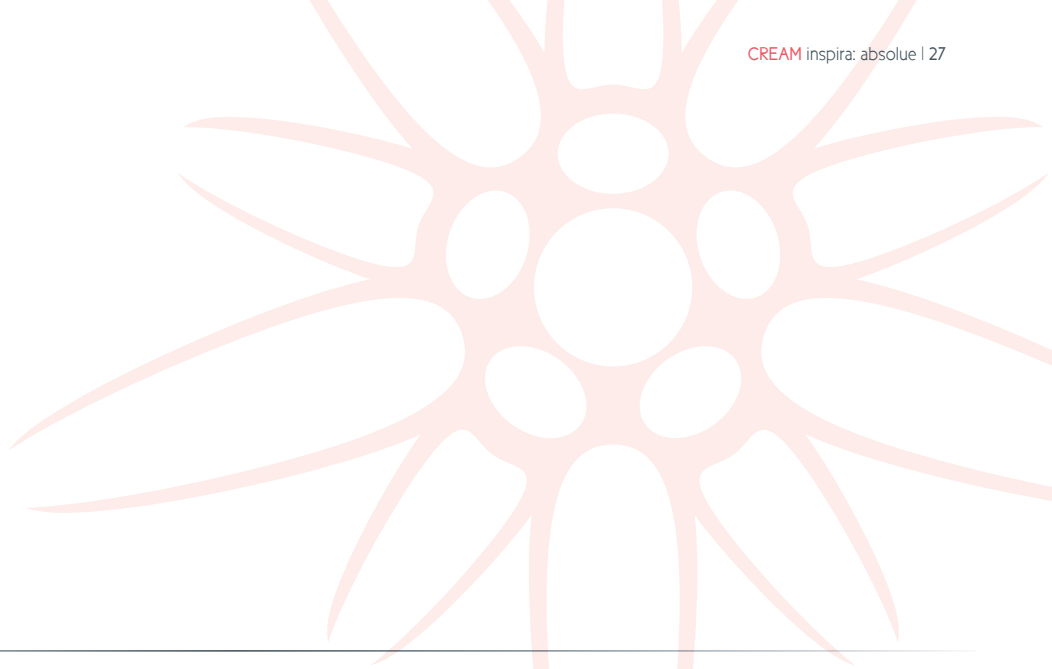

Vanilla-yellow creamy texture

PRODUCT DESCRIPTION

Beautiful Eyes CREAM is a special eye cream designed specifically for the stressed, sensitive eye area. Light-reflecting pigments ensure immediate brightening of the shadows around the eyes, wrinkles are reduced optically. For long-lasting freshness and bright eyes. In addition, a light protection filter protects against UVA/UVB and infra-red radiation.

EFFECTS AND CHARACTERISTICS

- Long-lasting moisturising of the skin (long-term effect lasting 72 hours)
- Strengthening of the barrier function of the skin
- Reduces the transepidermal water loss
- Anti-oxidative
- Counteracts swelling and dark circles around the eyes
- Pads out lines and wrinkles
- Inhibits the enzymes which participate in the skin aging process
- Smoothes and lifts the skin
- Reduces the depth and volume of wrinkles
- Prevents IR-induced stress
- With UVA/B protection
- Immediately brightens the entire eye zone

SPECIAL INGREDIENTS

- **PENTAVITIN™***: skin identical carbohydrate complex for long-lasting moisturising of the skin. 72 hours long-lasting effect thanks to the permanent junction to the keratinocytes of the Stratum corneum. This strengthens the barrier function which reduces transepidermal water loss.
- **Allantoin**: the calming and anti-inflammatory properties counteract redness.
- **Shea Butter**: moisturises the skin and makes it soft and supple.
- **Vitamin E Acetate**: is converted within the skin to free Vitamin E and has an anti-oxidative effect.
- **Alpha Bisabolol**: the calming and anti-inflammatory properties counteract redness.
- **Short-chain Hyaluronic acid**: Short-chain Hyaluronic acid is able to penetrate the upper layers of the Stratum corneum and bind water there. The result is a higher water content in the skin and transepidermal water loss is reduced. The skin is padded from the inside out.
- **Long-chain Hyaluronic acid**: Long-chain Hyaluronic acid is not able to penetrate the skin, but it forms a water-binding film on the surface and thus protects the skin from drying out. Fine lines and wrinkles are smoothed (line filler effect).
- **Edelweiss extract**: the Alpine Edelweiss extract has a high anti-oxidative capacity and acts as a very good radical interceptor and protects the skin from damages caused by an excess of free radicals. In addition, the extract also has a calming effect. Further, Edelweiss also inhibits enzymes (e.g. hyaluronidases and 5-lipoxygenases which contribute to skin aging).
- **Venueane®**: prevents IR-induced stress. It inhibits inflammation responses, improves the hydration of the Stratum corneum and maintains the structure of the skin thus limiting the formation of wrinkles.
- **Matrixyl synthe'6®**: highly effective peptide encourages the synthesis of 6 key components of the skin matrix of the dermoepidermal junction zone. The skin is smoothed and lifted. Unpopular lines and wrinkles are also counteracted considerably. The average wrinkle depth is reduced after two months by approximately 16 %. The wrinkle volume is reduced by about 23 %.
- **Light-Diffusing Pigments**: Light-diffusing pigments ensure immediate brightening of the entire eye zone. Wrinkles are immediately reduced optically. The eyes look radiant and fresh the entire day.
- **Light protection filter**: protects the skin from damages caused by UVA and UVB radiation.

USE IN THE CABINE | AT HOME

Apply mornings and /or evenings after cleansing to the moving eye lid and below the eyes and gently pat until absorbed.

NOTE | TIP

For particularly tired eyes, apply the **Lifting / Anti Fatigue AMPOULE** underneath the eye care and gently pat until absorbed. With UVA and UVB + IR protection.
