Detoxifying Day CREAM Rich

50 ml glass jar
100 ml dispenser

SHORT DESCRIPTION

Rich, detoxifying and protective day care

SKIN TYPE

Stressed, dry skin

PRODUCT GALENICS

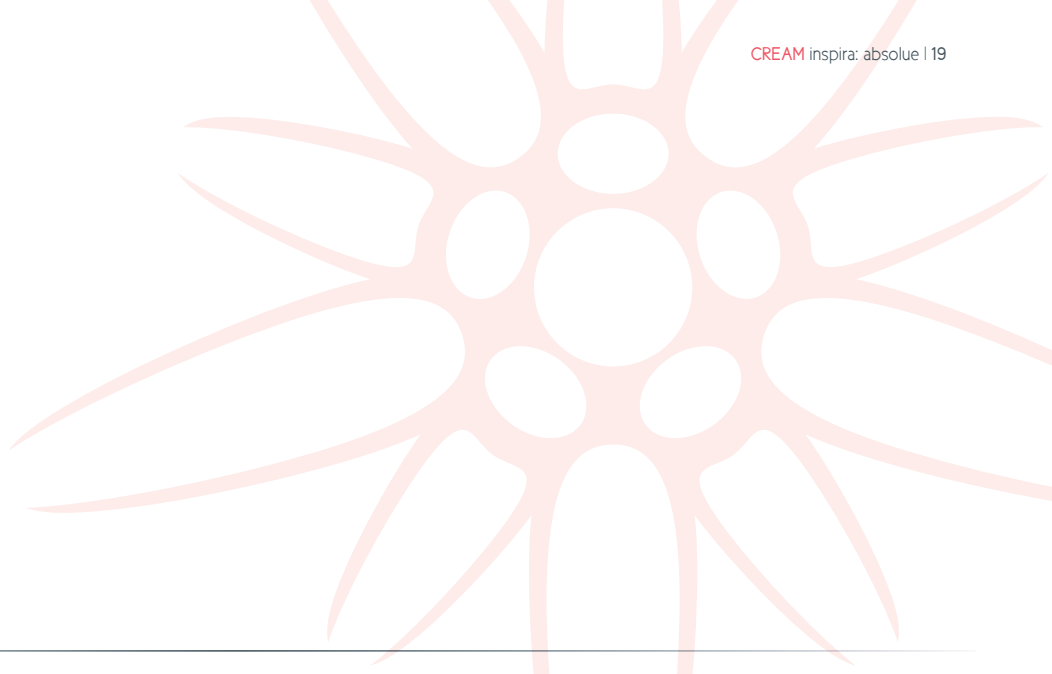

Rich, white cream texture with UVA/UVB + IR protection

PRODUCT DESCRIPTION

Detoxifying Day CREAM Rich is a rich care cream with valuable lipids (including Shea Butter) for stressed, dry skin. With its effective ingredients, the natural function of the skin is restored. It is slowed down, detoxified and protected (UVA/UVB + IR). Redness and inflammations are calmed, the skin is protected from drying out and premature aging.

EFFECTS AND CHARACTERISTICS

- Rich texture with valuable lipids
- Long-lasting moisturising of the skin (long-term effect lasting 72 hours)
- Strengthening of the barrier function of the skin
- Reduces the transepidermal water loss
- Soothing and anti-inflammatory effect
- Anti Pollution effect
- Soothes redness
- Forms a water-binding film on the surface of the skin
- Protects the skin from dryness
- Pads out lines and wrinkles
- Anti-oxidative and detoxifying (detox effect)
- Inhibits the enzymes which participate in the skin aging process
- Prevents IR-induced stress
- Inhibits inflammation responses
- Stimulation of Collagen synthesis
- UVA/UVB + Infra-Red protection

SPECIAL INGREDIENTS

- **PENTAVITIN™***: skin identical carbohydrate complex for long-lasting moisturising of the skin. 72 hours long-lasting effect thanks to the permanent junction to the keratinocytes of the Stratum corneum. This strengthens the barrier function which reduces transepidermal water loss.
- **Allantoin**: has calming and anti-inflammatory properties to soothe the skin.
- **Shea Butter**: moisturises the skin and makes it soft and supple.
- **Alpha Bisabolol**: the calming and anti-inflammatory properties counteract redness.
- **Short-chain Hyaluronic acid**: short-chain Hyaluronic acid is able to penetrate the upper layers of the Stratum corneum and bind water there. The result is higher water content in the skin and transepidermal water loss is reduced. The skin is padded from the inside out.
- **Long-chain Hyaluronic acid**: long-chain Hyaluronic acid is not able to penetrate the skin, but it forms a water-binding film on the surface and thus protects the skin from drying out. Fine lines and wrinkles are smoothed (line filler effect).
- **Edelweiss extract**: the Alpine Edelweiss extract has a high anti-oxidative capacity and acts as a very good radical interceptor and protects the skin from damages caused by an excess of free radicals. In addition, the extract also has a calming effect. Further, Edelweiss also inhibits enzymes (e.g. hyaluronidases and 5-lipoxygenases which contribute to skin aging.)
- **Venuceane®**: prevents IR-induced stress. It inhibits inflammation responses, improves the hydration of the Stratum corneum and maintains the structure of the skin thus limiting the formation of wrinkles.
- **Extract of Red Camellia**: the natural extract is used as anti-pollution ingredient thanks to its versatile properties. It has both anti-oxidative and anti-inflammatory properties. In addition, the extract also stimulates the synthesis of Collagen. In vivo studies have demonstrated an improvement in the moisture content of the skin and an anti-wrinkle effect.
- **UVA/UVB**: light protection filter protect the skin against light-induced damages.

USE IN THE CABINE | AT HOME

Every day, in the morning after cleansing, apply evenly to the face, neck and décolleté and gently massage in. Avoid the eye area.

NOTE | TIP

With UVA/UVB + IR protection.
