Bi Phase Ampoules

NEUROGENETICS

Ampoules concentrate with oily and aqueous phase

14 x 2 ml Ampoule
25 x 2 ml Ampoule

Short Description

Skin type

Two-Phase Ampoule with effective Pro Barrier concept

Especially for skin with barrier damages and for use alongside treatment for Neurodermatitis

Description

A two-phase ampoule with effective Pro Barrier concept to treat damage to the skin barrier and for use alongside treatment of Neurodermatitis. Combats flaky skin and itchiness, increases overall well-being, smoothes skin and combats wrinkles. The Repair Complex made from natural plant extracts (including Blackcurrant seeds and Balloon plant extract) regenerates the natural skin barrier. The production of Filaggrin, which is essential for creating new skin, is boosted. This reduces transepidermal water loss and strengthens the skin barrier. Premium lipids and oils, such as Macadamia Nut oil and Inca Inchi oil, which is rich in Omega-3 and unsaturated fatty acids, help clearly improve smoothness of the skin. The combination of Panthenol and Bisabolol soothes and combats redness. Hyaluronic acid helps smooth lines and wrinkles.

Effects and characteristics

- Two-phase ampoule
- Pro Barrier concept
- Repair Complex
- Regenerates and strengthens natural skin barrier
- Alongside treatment for Neurodermatitis
- Combats flaky skin and itchiness
- Increases overall well-being
- Smoothes the skin
- Combats wrinkles
- Increases the production of Filaggrin
- Reduces transepidermal water loss
- Improve smoothness of the skin
- Soothes and combats redness
- Smoothes lines and wrinkles

Special ingredients

- **Pentavitin®***: Boosts Filaggrin and has a long lasting moisturizing effect and protects the skin barrier.
- **Repair Complex**: made from natural plant extracts like blackcurrant seeds oil and Balloon Plant extract, regenerates the natural skin barrier.
- **Macadamia Nut oil**: Improves smoothness of the skin and helps her to regenerate.
- **Inca Inchi oil**: Rich in Omega 3 und unsaturated fatty acids, improves the skin's smoothness.
- **D-Panthenol**: Soothes and combats redness.
- **Bisabolol**: Anti-inflammatory and skin soothing.

Professional Application

Home Care Application

Shake the ampoule well until both phases have mixed, lay the ampoule in a tissue and break open. Give it after cleansing as a cure under the mask/treatment cream. Pour the content into your hand and softly rub in. For single use only. External use only.

REPAIR COMPLEX: counteracts inflammation, calms the skin and stabilizes the skin barrier

Black Currant Seed Oil

- rich in fatty acids
- strengthens skin barrier
- counteracts inflammation

Balloon Plant Extract

- precious phytosterols
- calming
- natural alternative to hydro-cortison

Sun Flower Oil Concentrate

- high percentage of unsaponifiable components
- rich in essential fatty acids
- stabilizes skin barrier

- **Filaggrin Booster Pentavitin®:** builds net like structure in the epidermis, helps forming new skin, a recent study found out that due to a genetic mutation 8% of German kids had a problem in building Filaggrin, leading to contact Dermatitis, Neurodermits and very rough skin.
- **D-Panthenol and Bisabolol:** For more comfort and wellbeing, smoothes the skin acts against inflammation, has anti wrinkle properties.

Bi Phase ampoules NEUROGENETICS combine the advantages of an aqueous product and the benefits of an oily product.

Inca Inchi is a peruvian Amazonia plant known by local people for thousands of years. Inca Inchi oil is obtained by cold pressure of seeds. From all known natural sources, Inca Inchi oil is the richest oil in Omega 3 all over the world. It is the richest in unsaturated fatty acids. They can reach 94% of its composition.

Our ORGANIC Inca Inchi® oil contains:

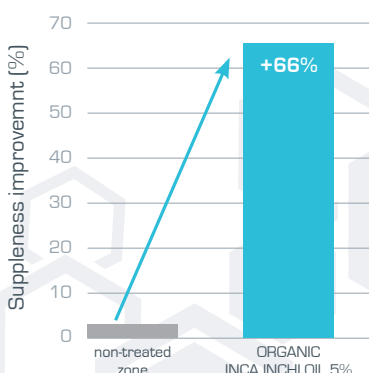

- Omega 3 (Alpha-linolenic acid): 45 - 60%
- Omega 6 (Alpha-linoleic acid): 25 - 37%
- Omega 9 (Oleic acid): 8 - 12%
- Palmitic acid: 3 - 5%
- Stearic acid: 1.5 - 3.5%
