## TREND EDITION

- Gives a natural, youthful glow
- Moisturises intensively
- Supports the natural skin barrier
- Prevents the first signs of ageing
- Soothes the skin
- Delicate texture

### Home care application

In the morning and evening, apply Sensational Glow Cream to cleansed skin and gently massage in.

Use ideally in combination with the Magic Glow Serum in the morning.

## Sensational Glow Cream

### 24-HOUR TREATMENT FOR GIVING THE SKIN A LASTING GLOW

The new trend-setting Sensational Glow Cream is an innovative 24-hour treatment that gives the skin a natural, youthfully fresh and long-lasting glow with regular application. An intensely moisturising beauty formula that contains dual hyaluron and Soft Focus pigments for an instantly enhanced-looking complexion. When used regularly, algae ferment improves skin radiance by optimizing the cell differentiation process in the upper layers of the skin, creating a uniform structure that's ideal for adding glow to the skin. A special bark extract inhibits sebaceous gland function, reducing oily shine and shrinking pores. This gives the skin a radiant glow – minus the shine. Last but not least, the cream has a wonderfully delicate consistency and soothing active ingredients such as aloe vera, allantoin and niacinamide.

Sensational Glow Cream can be included as the final stage of any treatment regime. The natural glowing look can be enhanced by Magic Glow Serum.

### ACTIVE SUBSTANCES

- **Indian Ocean algae extract:** Bacillus ferment has been shown to improve skin radiance by 28% after 28 days. It also improves skin hydration and reduces transepidermal water loss (TEWL), as well as increasing skin firmness
- **Equal-Refining Complex:** The combination of oleanolic acid and Enantia Chlorantha bark extract reduces oily shine and shrinks pores
- **Long- and short-chained hyaluronic acids:** Plump out fine lines and wrinkles
- **Saccharide Isomerate:** Skin-identical carbohydrate complex for long-lasting hydration of the skin (72-hour long-term effect)
- **Aloe Vera:** Moisturising and invigorating
- **Allantoin:** Counteracts inflammation and soothes the skin
- **Caffeine:** Supports skin microcirculation with invigorating effect
- **Niacinamide:** Strengthens skin barrier and prevents inflammation
- **Shea Butter:** Nourishes the skin and supports its barrier function
- **Soft Focus Pigments:** Visually reduce fine lines and wrinkles
