JANSSEN COSMETICS

DRY SKIN

- Gentle 24-hour care for dehydrated skin
- Provides long-lasting moisture deep into the skin
- Smooths wrinkles caused by dryness
- Pleasantly soft gel texture
- Refreshing summer treatment
- 11% lipid content

Hydro Active Gel

LIGHT GEL CREAM FOR EXTREMELY DEHYDRATED SKIN

Hydro Active Gel is an ultra-light moisturiser specially developed for dry, extremely moisture-deficient skin. The pleasantly refreshing gel texture absorbs quickly, moisturising the skin immediately and providing continuous hydration. Dryness lines are reduced, leaving the skin looking fresh and silky soft.

Hydro Active Gel contains active ingredients that work deep into dehydrated skin, delivering an intense, long-lasting shot of moisture. Natural wild pansy extract activates water channels between skin cells, replenishing the skin's moisture reserves extremely effectively. Tried and tested Imperata Cylindrica extract delivers high levels of moisture to the skin right around the clock. Long-chain hyaluronic acid also smooths the skin surface and provides long-lasting protection against moisture loss. Panthenol can reduce irritation and smooth the complexion.

The result? Dry skin is intensely moisturised, acquiring a fresh, natural glow.

Home care application

Depending on preference, spread gently over face, neck and cleavage mornings and/or evenings after cleanser and tonic.

Tip: can be combined with any skin care cream or used as a delicious treatment for ladies who don't like a creamy texture!

Recommendation: Face Guard Advanced counteracts premature skin ageing through effective light protection. Simply apply the delicate emulsion during the day under Hydro Active Gel.

ACTIVE SUBSTANCES

- **Wild pansy extract:** Rich in oligosaccharides; activates water channels between skin cells, replenishing the skin's moisture reserves
- **Long-chain hyaluronic acid:** Forms a water-binding film on the skin surface and, protecting the skin from drying out. fills out fine lines and wrinkles
- **Imperata cylindrica:** Root extract from the desert plant Imperata cylindrica significantly increases moisture levels in the upper epidermal layers for a long-lasting effect (20% more moisture after 24 hours)
- **Shea Butter:** Nourishes the skin, supports its barrier function and makes it soft and supple, reducing the tight feeling in dry skin
- **D-Panthenol:** Pre-stage of vitamin B5; supports natural skin regeneration and strengthens its barrier function
