DEMANDING SKIN

- Neck cream with lifting effect
- Skin-smoothing
- Rich but nevertheless light consistency
- Increases the skin's resilience and elasticity
- Fortifies the structure of the neck

Home care application

Apply Firming Neck & Décolleté Cream onto the cleansed skin of the neck and neckline in the morning and/or evening and massage in gently.

Tip: Outstanding as a cure product for firming the neck following slimming cures!

Recommendation: Face Guard Advanced combats premature skin aging with effective light protection. To achieve this, apply the extremely light lotion beneath Firming Neck & Décolleté Cream during the day.

Firming Neck & Décolleté Cream

NECK & NECKLINE CREAM

The characteristics of the neck often reveal a person's biological age. However, this demanding zone should always be provided with an extra portion of effective care before an unwanted double chin occurs and wrinkles become visible in the neckline area.

Firming Neck & Décolleté Cream is an oil-in-water emulsion with a pleasantly silky texture. It is used to specifically provide restructuring and firming care to the skin on the neck and neckline.

In the salon, a cream wrap is used to achieve a particularly intensive effect. To accomplish this, simply apply Firming Neck & Décolleté Cream generously in the sense of a pack, cover with transparent film and a warm compress, and allow to work in during the mask break. Gently massage any residues into the skin.

ACTIVE SUBSTANCES

- **Oat extract:** Noticeably lifts the skin
- **Yeast extract:** Stimulates the synthesis of anchor proteins in the dermal-epidermal connective layer and therefore reduces the volume and depth of wrinkles
- **Hyaluronic acid (long- and short-chain):** Immediately noticeable skin smoothness and long-lasting increase in skin moisture; smoothes and reduces wrinkles caused by dryness
