SENSITIVE SKIN

- **Nourishes the sensitive eye area**
- **Smooths wrinkles caused by dryness**
- **Reduces swelling and dark circles around the eyes**
- **Regenerates and strengthens the skin's natural protective barrier**
- **Makes the skin more resistant to external irritants**

Comfort Eye Care

GENTLE EYE CARE EMULSION

This fast-absorbing and easy-to-spread eye care product has been specially developed to meet the needs of the very sensitive, reddened eye area. It contains active ingredients that soothe the stress-prone skin around the eye and protect it from environmental influences. The combination of nourishing shea butter and ISIS in conjunction with the Skin Defense Complex⁺ strengthens the skin barrier and reduces transepidermal water loss. Saccharides isomerate and hyaluronic acid provide additional moisture and reduce fine lines and wrinkles. Organically grown eyebright extract and the sensitive complex visibly reduce dark circles*.

The result? The eye area appears fresher, smoother and more supple. The feeling of tightness is reduced.

Home care application

Apply Comfort Eye Care in the morning and evening to the skin around the eyes and pat gently.

** Efficacy study with sensitive complex*

ACTIVE SUBSTANCES

- **Eyebright:** Alleviates swelling and dark eye circles
- **Skin Defense Complex⁺:** A highly active phyto complex made from **black currant seed oil** (rich in omega-3 and omega-6 fatty acids, reduces inflammation and repairs the skin's barrier function), **balloon plant** (rich in phytosterols, considered a herbal alternative to hydrocortisone and reduces inflammation) and the unsaponifiable parts of **sunflower oil** (rich in essential fatty acids; protects and restores the damaged skin barrier and reduces allergic reactions)
- **Sensitive complex:** A highly active plant extract containing the active ingredients from Asian marsh pennywort, butcher's broom, marigolds, horse chestnuts and liquorice roots which soothes any signs of irritation (redness, swelling, feelings of tightness)
- **Long-chain and short-chain hyaluronic acid:** Intensively moisturises and protects
- **ISIS (Isostearyl-Isostearate):** An emollient derived from raw plant-based materials, clinical studies have shown that it integrates into the intercellular lipids and thus strengthens the barrier function of the skin
- **Shea butter:** Nourishes the skin and supports its barrier function
- **Saccharide Isomerate:** A skin-identical carbohydrate complex for long-lasting hydration of the skin (72-hour long-term effect)
- **Allantoin:** Soothes the skin, reduces redness
- **α-Bisabolol:** Soothing, anti-inflammatory, relieves irritation
- **Vitamin E acetate:** Neutralises harmful free radicals
