

MATURE SKIN

- Provides and maintains moisture
- Noticeably strengthens the facial contours
- More relaxation and care with every application
- Improved radiance
- Creamy soft and pleasant to apply

HIGHLY-EFFECTIVE REGENERATING CREAM MASK

The Rejuvenating Mask, with the Cellular Regeneration Complex, is a supplementary intensive care with a quick and noticeable effect for mature, dry skin, whose regenerative capacity and tension has lessened. The rich formula provides soothing relaxation and revitalises dull, tired skin in just a few minutes.

The high-performance active ingredients of the Cellular Regeneration Complex – called CRC for short – ensure a comprehensive regeneration of mature skin and strengthen the skin's structure. Red clover extract has been shown to reduce wrinkles, tighten the skin and moisturise. Kombucha, a multi-active ingredient from fermented black tea, improves the radiance. Recent studies show that Kombucha can stimulate the development and maturation of the fat cells in the skin and thus acts as a natural lipo-filling.

A combination of Sensitive Complex and Bisabolol provides a comprehensive, skin-calming effect. Short and long-chain hyaluronic acid provide the skin with intensive moisture.

The result: The skin immediately appears rested, revitalised and radiant.

ACTIVE SUBSTANCES

- CRC (Cellular Regeneration Complex):
 - Red Clover Extract: Rich in isoflavones, reduces creases, firms the skin, moisturises
 - Kombucha: Fermented black tea, smooths the skin thanks to the lipofilling effect, improves radiance and gives a rosier complexion
- Sensitive Complex: Plant extract with the active ingredients from Centella asiatica and butcher's broom, has a soothing effect on the skin
- Bisabolol: Normalises and soothes even sensitive skin
- Long and Short-Chained Hyaluronic Acid: Moisturising and binding. Ideal for mature skin which is showing traces of small creases
- Macadamia Nut Oil: Natural oil, gently soothes and softens the skin
- · Cupuacu Butter: Valuable lipid, cares for the skin
- Vitamin E Acetate: Becomes free vitamin E in the skin and neutralises damaging free radicals

Home care application

Apply the Rejuvenating Mask generously to the cleansed skin two to three times a week. Leave on for 10-15 minutes and remove the residue with a moist, warm flannel – then follow your usual care routine.

Tip: For dry skin, dab away any residues with a cellulose cloth and, instead of using an additional night cream, you can just go to bed.
