☰ Marine Collagen Cream

FIRMING ANTI-AGEING CREAM

Marine Collagen Cream with marine collagen and collagen boosters counteracts decreasing tissue firmness and minimises wrinkles. The rich formula helps the skin triple its natural collagen content, leaving it looking youthful, plumper and firmer.

1. Marine collagen provides a noticeable lifting effect on the skin. It covers the skin like an invisible film that binds moisture, filling out fine wrinkles and lines.
2. The pomegranate flower extract in combination with stabilised vitamin C activates the skin's own collagen production, ensuring replenished, denser skin.
3. Since both pomegranate flower extract and vitamin C are known for their anti-oxidative activity, the cream also prevents the breakdown of collagen fibres and counteracts premature skin ageing.

In addition, long-chain hyaluronic acid immediately gives the skin noticeable smoothness and suppleness. Nourishing macadamia oil leaves skin silky soft and vitamin E protects cells from free radicals and premature, light-related skin ageing.

Marine Collagen Cream has a rich consistency and is quickly absorbed by the skin. It is a suitable as final care step for collagen treatment and as firming 24-hour skincare at home.

Home care application

Apply to face, neck and neckline mornings and evenings after cleansing the face.

ACTIVE SUBSTANCES

- **Marines Collagen:** Collagen of marine origin, provides a lifting effect on the skin. Since it is a macromolecule, it cannot penetrate the skin. It remains on the skin and has a moisture-binding and moisture-retaining, film-forming and firming effect
- **Pomegranate extract:** Concentrated pomegranate flower extract (punica granatum, flos) and a vitamin C derivative; stimulates collagen production, increases skin density, reduces wrinkles and protects against light-related skin ageing
- **Long-chain hyaluronic acid:** Forms a water-binding film on the skin surface and, protecting the skin from drying out. Fills out fine lines and wrinkles
- **Macadamia oil:** A natural oil extracted from the macadamia nut; absorbs well, nourishes the skin and leaves it soft and supple
- **Vitamin E Acetate:** Vitamin E is a natural antioxidant; depending on the concentration used, vitamin E protects the skin from the negative effects of free radicals, moisturises and smooths the skin
